

CALIFORNIA PROPOSITION 65 INFORMATION

The California Safe Drinking Water & Toxic Enforcement Act of 1986, commonly referred to as California Proposition 65 or simply Prop 65, requires some manufacturers to provide customers with notification about chemicals in the products they purchase. The requirements effective as of August 30, 2018 require a warning including:

- The name of at least one listed chemical that prompted the warning;
- The internet address www.P65Warnings.ca.gov, which includes additional information on the health effects of listed chemicals and ways to reduce or eliminate exposure; and
- A triangular warning symbol (in yellow if the printing otherwise contains yellow in it).

The law applies to consumer products sold in California, even if produced elsewhere. Depending upon the particular steel product purchased and the use to which that product is put, steel sold by Steel Dynamics, Inc. – Roanoke Bar Division (SDI) can contain chemicals covered by Proposition 65. Therefore, SDI provides the following warning for many of its products:

 **WARNING:** This product can expose you to chemicals including Lead and Lead Compounds, which are known to the State of California to cause cancer, and Lead and Lead Compounds, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Proposition 65 information can also be found in Section 15 (Regulatory Information) of the SDS under the “State Regulations” section. Please refer to www.steeldynamics.com and choose “Resources” and then “SDS Vault” for “Engineered Steel Bar Products” safety data sheets (SDS), or contact your sales representative. .

If you have any questions regarding products produced by SDI, please contact your sales representative. We certainly value your business.

SDI Policy Update Effective Date June 10, 2019
